## GRADING GUIDELINES:

### Character Grade

Our character grade highlights the natural features in European Oak. We allow for a culled presence of knots, cracks and sapwood. The allowance of up to 2" diameter knots, and open knots of up to 3/4" create a flooring grade that is both natural and sophisticated. Open voids are filled with a dark brown epoxy prior to finishing.

### Select Grade

Our select grade highlights the tonal uniformity and clarity of an elevated grade of European Oak. We allow for occasional pin knots and small filled knots up to 5/8" in diameter. Efforts are made to cull sap, but some edge or end sap may be present.

## INSTALLATION GUIDE:
