

reSAWN TIMBER co. is committed to sustainable building. Our products contribute towards satisfying the following credits under LEED®, the nationally accepted benchmark for the design, construction and operation of green buildings:

MR 4: RECYCLED CONTENT

Our reclaimed wood is sourced from sound structures throughout the Appalachian Region, originally built with old-growth timbers.

MR 5: REGIONAL MATERIALS

reSAWN TIMBER's products are all sourced, manufactured and finished in the United States. As we source from several locations, please contact us for project specific information.

MR 6: RAPIDLY RENEWABLE MATERIALS

reSAWN TIMBER's Hardwax Oil finish is made from natural plant based products such as Flax and Carnauba plants, both of which are considered rapidly renewable materials.

MR 7: CERTIFIED WOOD

Most **reSAWN** products can be provided as FSC-Certified - please contact us for additional information.

EQ 4.1: LOW-EMITTING MATERIALS: ADHESIVES AND SEALANTS

reSAWN TIMBER's Engineered Flooring is constructed of 9 layers of birch, bonded together with a non-toxic glue.

EQ 4.2: LOW-EMITTING MATERIALS: PAINTS AND COATINGS

reSAWN TIMBER's Hardwax-Oil finish is VOC-free and complies with South Coast Air Quality Management standards.

EQ CREDIT 4.4: LOW-EMITTING MATERIALS: COMPOSITE WOOD AND AGRIFIBER PRODUCTS

reSAWN TIMBER's products contain no urea formaldehyde.
