HANDCRAFTED MODERN WOOD FURNITURE

Custom wine door, casing and back-band from select grade antique reclaimed oak being delivered. The purpose of using antique lumber was not to have nail holes, checking and work tracks, but instead to have the door built historically accurate using old growth lumber that would have been available at the time period reflected in the design of the door. JMA, since its founding more than 4 decades ago, has dedicated itself to historic preservation and cultural resources management through continued development of the myriad disciplines that support and promote a holistic approach to saving and preserving our Nation's irreplaceable historic resources.
