

HERITAGE

SPECIFICATIONS:

SOURCE:	Antique Reclaimed Oak (Mix of Red/White Oak)
GRADE:	Rustic
FINISH:	Matte Polyurethane/Unfinished
Janka Hardness (ASTM D 1037):	1,325 *
Flame Spread Class Rating (ASTM E84):	Class III (C) **
Standard Millwork:	Tongue & Groove, Endmatched

HERITAGE is a mix of reclaimed red & white oak creating a pleasing variation of colors. Expect a warm palette of colors, with dense & varying grain patterns. Typical character marks include mineral staining, color changes, weathering, checking, nail holes, and knots. Available SOLID or ENGINEERED.

APPLICATIONS: HERITAGE is for INTERIOR applications - walls, ceilings, millwork and flooring (not recommended for exterior applications)

STANDARD DIMENSIONS & EDGE DETAIL:

	Solid	Engineered
Thickness:	3/4"	5/8" (4 mm wear layer)
Width:	5"	5"
Random Lengths:	2'-10'	2'-10'
Edges:	Microbevel	Microbevel

\* Janka Rating from similarly tested products - expected to be close to actual measurements of reSAWN products.

\*\* Flame Spread Class Rating, Flame Spread Index Data and Smoke Developed Index based on report from American Wood Council - 2024. Testing is on unfinished, solid wood. reSAWN's products are not tested but are expected to be close to actual measurements for comparable wood species -- can be treated to Fire Treated to Class A for Interior Applications - please call to inquire.

Photo Disclaimer: Project and product photos are meant to be a general guide to product appearance only. Due to our handcrafted process and wood being a product of nature, the color, grain pattern, character and profile will vary between individual boards on a project and will never be an exact match.

OLD SCHOOL

SPECIFICATIONS:

SOURCE:	Antique Reclaimed Oak (Mix of Red/White Oak)
GRADE:	Rustic
FINISH:	Matte Polyurethane/Unfinished
Janka Hardness (ASTM D 1037):	1,325 *
Flame Spread Class Rating (ASTM E84):	Class III (C) **
Standard Millwork:	Tongue & Groove, Endmatched

OLD SCHOOL begins as HERITAGE and goes thru an additional step called “skip planing”. Skip planing is a process whereby the boards are put thru a planer set to only remove the high points, “skipping” over the low points to create contrast. Typical character marks include mineral staining, color changes, weathering, checking, nail holes, knots, and heavy patina. Available in SOLID and ENGINEERED. Due to the nature of this material, thicknesses tend to vary slightly. Available unfinished or prefinished with a matte polyurethane.

APPLICATIONS: OLD SCHOOL is for INTERIOR applications - walls, ceilings, millwork and flooring (not recommended for exterior applications)

STANDARD DIMENSIONS & EDGE DETAIL:

	Solid	Engineered
Thickness:	3/4"	5/8" (4 mm wear layer)
Width:	5"	5"
Random Lengths:	2'-10'	2'-10'
Edges:	Microbevel	Microbevel

\*\* Flame Spread Class Rating, Flame Spread Index Data and Smoke Developed Index based on report from American Wood Council - 2024. Testing is on unfinished, solid wood. reSAWN's products are not tested but are expected to be close to actual measurements for comparable wood species -- can be treated to Fire Treated to Class A for Interior Applications - please call to inquire.

WEATHERWORN

SPECIFICATIONS:

SOURCE: Reclaimed Barn Siding

WEATHERWORN does not have a finish applied as the boards have been naturally oxidized over the years to produce a tough, weather resistant “skin”. Typical character marks include mineral staining, color changes, weathering, checking, nail holes, knots, and heavy patina. Available in SOLID ONLY. Call to discuss custom lengths and widths. Due to the nature of this material, thicknesses tend to vary slightly.

	Solid
Thickness:	+/- 1/2"
Random Widths:	3-3/4", 4-1/4", 5-1/4", 6-1/4" random widths
Random Lengths:	4'-12'
Edges:	Square
Milling:	S1S2E

APPLICATIONS: WEATHERWORN is for INTERIOR applications - walls, ceilings, and millwork (not recommended for flooring)
