

EXPRESS SHIP PROGRAM

Product shown: TEAK Abodo Vulcan Cladding

reSAWN TIMBER co.'s Express Ship Program offers architecture and construction professionals a streamlined, expedited route to procure premium wood cladding materials. This program is tailored to meet the fast-paced nature of modern projects, aligning tight deadlines with the demand for superior materials. The Express Ship Program currently presents selections from Sylva, Abodo, and Accoya, with a diverse array of color choices to suit various design preferences. The wide range of selections ensure designers and builders have access to a variety of options without compromising on quality or craftsmanship.

reSAWN TIMBER co. maintains a commitment to sustainability throughout its operations, sourcing timber from responsibly managed forests and utilizing eco-friendly manufacturing processes. The Express Ship Program offers both convenience for project timelines and an ethical option for sustainability-focused designs.
